Le forme parlano, la materia racconta. Le nuove creazioni LYXO nascono da un design narrativo che trae ispirazione dalla natura e dagli ambienti outdoor. Ogni pezzo è frutto di un dialogo tra creatività e innovazione tecnologica, che trasforma il polietilene - materiale riciclabile al 100% e altamente performante - in arredi iconici e funzionali. Con tecnologie all'avanguardia e maestria artigianale, LYXO non arreda solo uno spazio, ma lo accende di emozioni e colore, creando oggetti scultorei che raccontano una storia.

Forms speak, materials tell stories. The new LYXO creations emerge from a narrative design inspired by nature and outdoor environments. Each piece results from a dialogue between creativity and technological innovation, transforming polyethylene - a 100% recyclable and high-performance material - into iconic and functional furnishings. With cutting-edge technologies and artisanal mastery, LYXO doesn't just furnish a space but illuminates it with emotions and color, creating sculptural objects that tell a story.

Lira

Armchair

Design **LCM Marin Design Studio**

Una poltroncina dal design equilibrato, solida come radici nella terra e leggera come una brezza. La sua versatilità la rende perfetta in ogni ambiente, fondendo comfort ed eleganza formale.

Materiale: Polietilene

Colori: 9

A balanced armchair, as solid as roots in the earth yet light as a breeze. Its versatility makes it perfect in any environment, blending comfort with elegance.

Material: Polyethylene

Colors: 9

Standard 

On Demand 

Dimensions: 61.5x59x82 cm

Material: Polyethylene

Vera

Design **LCM Marin Design Studio**

Una collezione living outdoor dalle linee morbide con dettagli decorativi che richiamano le nervature delle foglie. Un richiamo alla natura che trasforma ogni spazio in un rifugio elegante e suggestivo.

Materiale: Polietilene

Colori: 9

An outdoor living collection with soft lines featuring decorative details reminiscent of leaf veins. A nod to nature that transforms any space into an elegant and evocative refuge.

Material: Polyethylene
